

Product spec. sheet

RK6 portable rack from Audio Ltd.

Frequency range	470 - 870 MHz (specify with order)
Number of DX2040 receiver slots	6
Active distribution amplifier bandwidth	24 MHz typical (larger bandwidth available)
External powering	10 – 18V DC (2A max @ 12V)
External supply input	4 pin XLR male
Antenna inputs	2 x BNC 50Ω
Masthead amplifier supply	8V DC Max current 100mA
Aux RF outputs	2 x BNC 50Ω
Audio outputs	6 x 3 pin XLR male
Phase change	6 x slide switch (+0 deg, -180 deg)
Aux audio outputs	9 pin D-type unbalanced
Headphone output	1/4 inch stereo (wired as mono) 30 mW at 32Ω, adjustable
OLED Display	RF level, diversity switching, audio level, TX battery status, headphone select, frequency
Infra-red button on front panel	Synchronise TX
USB	USB type B for remote monitoring and control and firmware updates
Size	179mm (l) x 88mm (h) x 346mm (w)
Weight	2.8kg (without receivers)
