Windshield 7 Kit (P/N 086007): 401 - 450 mm (15.7 - 17.7")
Windshield 8 Kit (P/N 086008): 451 - 540 mm (17.7 - 21.3")

*Length - Min/Max.

The length of a Rycote windshield is determined by the overall microphone length, plus 50 mm (2") for the XLR. This gives the "body" length of the windshield, which is made from either a windshield body or windshield body + an extension for longer microphones.
