VT500MOBILE SMARTPHONE INTERVIEW KIT

MINIATURE OMNI LAVALIER PAIR AND SMARTPHONE DUAL ADAPTOR FOR MOBILE JOURNALISM

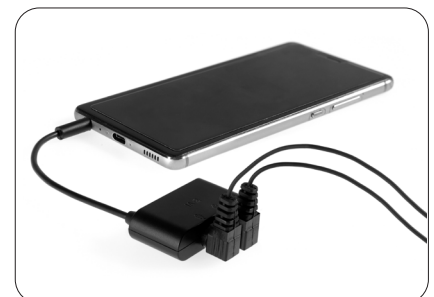

The VT500Mobile Interview Kit is a broadcast quality bundle for “on the go” mobile video and speech recording with a smartphone. The IA-2 adapter allows recording of two people at the same time at identical levels on one smartphone. The included VT500 Lavaliers are a matched pair with flat and natural frequency response. Mobile journalists, podcasters and “Youtubers” get the chance to record interviews and segments with two people in professional broadcast quality with little effort.

The Plug-and-play functionality that is ideal for the production of professional recording such as MoJo (Mobile Journalism), Content Creators, Podcasts, Social Media-Videos (Youtube, Vimeo), interview videos in Talking Head-Format and more. The IA-2 has a headphone jack for monitoring.

Kit includes: IA-2, (2) AC Clips, (2) Pro Windscreens and Carry Case

Code	Item	Price
Black	VT500MOBILE Smartphone Interview Kit

VT0732	IA-2 Adapter - combining adaptor for input of TWO Lavalier mics with 3.5mm TRRS connector into a Smartphone, (2) 3.5mm TRRS sockets, (1) Headphone socket to 3.5mm TRRS connector	\$ 29.95

VT500WATER

IPX7 CERTIFIED WATERPROOF MINIATURE OMNI LAVALIER WITH FLAT FREQUENCY RESPONSE

VT500WATER - IPX7 Certified Waterproof miniature Omni lavalier microphone. The extremely smooth sound of the VT500 is well maintained while successfully achieving this high rating against the harmful ingress of water. IPX7 Certification is the second highest rank in accordance with the International Standard IEC 60529 for water resistance. It allows for temporary submergence (up to 1 meter) of the microphone without compromise, enabling very flexible applications in the broadcast, film and performance areas. Equally at home at sporting events – it will provide assurance despite the adverse conditions, for example, throughout a yacht race or kayak event. Includes (5) accessories and Otter box. RF Protected.

Included Accessories: Alligator Clip, Dracula Mount, Pro Windscreen, Tie-Tac Clip and RBM2 Concealer.

Included Accessories: Alligator Clip, Dracula Mount, Pro Windscreen, Tie-Tac Clip and Rubber Body Mount.

VT506MOBILE AND VT506VIDEO

MINIATURE OMNI LAVALIERS FOR SMARTPHONES AND DSLR VIDEO CAMERAS

VT506MOBILE - Based on the acclaimed VT506 Omnidirectional Lavalier the **VT506MOBILE** is adapted to Smartphones and Tablets. A professional Broadcast-quality microphone it offers a significant audio quality boost compared to a smart-devices' internal microphone. The length of the cable is 8' to comfortably adapt to various situations. Equipped with a molded 3.5mm TRRS right-angle connector it's compatible with most Smartphones and Tablets. "Just plug in and go!" The VT506MOBILE records with such clarity that the difference to the internal microphone is stunning. *Compatible with most smartphones and with iPhone with lightning adaptor.*

VT506VIDEO - Based on the acclaimed VT506 Omnidirectional Lavalier the **VT506VIDEO** is adapted to the "Plug-In Power" 3.5mm mic input of DSLR Video cameras. A professional Broadcast-quality microphone it offers a significant audio quality boost compared to a camera's internal microphone and more convenient than traditional methods. Cable length is 8' to comfortably adapt to various applications. Equipped with a durable molded 3.5mm TRS right-angle connector it's compatible with nearly all DSLR cameras that record video with a 3.5mm mic input. Recommended for camera models with adjustable input level for best results. Audio is recorded to both L and R for no-frills direct uploads to social media and Vlogs.

VT403

ULTRA-MINIATURE HI-SPL HANDLING OMNI LAVALIER AND MOUNTING ACCESSORIES

VT403 - an RF Protected ultra-miniature Hi-SPL and water resistant lavalier microphone. Fitted with a special subminiature microphone capsule, the VT403 has high electromagnetic interference protection, very low inherent noise and a low distortion for high sound pressure levels (up to 136 dB-SPL). With an open, moderate rising HF response it is excellent for vocalists, stage performances, sports, and under-clothing placement.

Available in Black or Beige

VT403 microphones come standard with (5) custom accessories in a small, waterproof Otter® box with foam insert.

Included Accessories: Alligator Clip, Dracula Mount, Mini Windscreen, MMC/4 and Rubber Body Mount Concealer.

VT100

MINIATURE CARDIOID LAVALIER AND MOUNTING ACCESSORIES

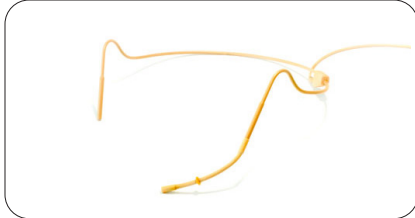

VT100 - Cardioid microphone with a miniature capsule head for applications where there is an abundance of ambient sound. Cardioid lavaliers are generally used in these noisy environments or when the talent is close to monitor speakers and do a good job of producing a clear, intelligible voice over the noise. Perfect for public address and presenters. The VT100's 1.5mm diameter supple cable is unmatched in its suppression of rubbing-noise from body movement. *Available in Black*

VT701 mkII SUPERLIGHT OMNI HEADSET MICROPHONE

PROFESSIONAL SOUND, ULTRA-COMFORT AND REMOVABLE CABLE

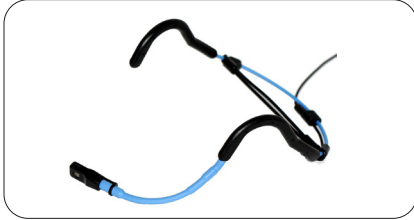

VT701 mkII OMNI - a superlight Omni headset microphone with Low-profile ultra miniature capsule head. It is ideal for applications requiring minimum visibility. Perfect for stage, broadcast, public address and presenters, the VT701 has an adjustable, wire-thin headband for a nearly invisible fit. The adjustable ear hooks allow the mic boom to be on either side and lay flat for easy transport. VT701 is more comfortable for extended wear than conventional headsets. The cable is removable and can be easily exchanged to provide connector compatibility between different wireless systems.

Includes: Windscreen and travel case

VT720W AEROBIC HEADSET MICROPHONES

PROFESSIONAL SOUND, COMFORTABLE AND DURABLE

VT720 NOISE-CANCELLING, WATERPROOF - Noise-cancelling, waterproof headset microphone for instructors of aerobics as well as television field reporters working in inclement weather. The Bi-directional microphone head is waterproof and a highly efficient noise canceller, which prevents interference from crowd noise, feedback from loudspeakers, and motor vehicle noise at a race track, for example. *Sleek Two-tone color Black with Blue.*

VT DUPLEX OMNI HEADSET MICROPHONE - WITH DUAL SPIRAL EAR HANGERS

PERFECT FIT, NEARLY INVISIBLE, MOST COMFORTABLE

VT DUPLEX OMNI HEADSET w/ DUAL SPIRAL EAR HANGERS - professional headset microphone featuring exceptional sound clarity and an unobtrusive, nearly invisible design. The VT DUPLEX utilizes a specialized super-miniature Omnidirectional capsule yielding the most natural speech reproduction. This capsule minimizes low frequency buildup while the stability from the mounting design keeps the signal free of handling noise. The soft and flexible spiral ear hangers gives any user the perfect fit every time without the fear of it slipping off. Presenters and stage actors benefit from having full freedom of movement. The boom can be worn on either the left or the right ear, and mounting is instantaneous and intuitive. The semi-rigid mic boom can be contoured to each users liking. The cable is removable and can be easily swapped to provide connector compatibility between different wireless systems.

Includes: Mini windscreen and Deluxe travel case. *Available in Beige color*

VT DUPLEX-VOCAL - OMNI STAGE PERFORMANCE HEADSET MICROPHONE

WATERPROOF, 136 dB-SPL HANDLING, PERFECT FIT

VT DUPLEX-VOCAL WATERPROOF, HI-SPL OMNI HEADSET MICROPHONE - professional stage performance vocal headset microphone featuring exceptional sound clarity and an unobtrusive, nearly invisible design. The VT DUPLEX-VOCAL utilizes a specialized waterproof super-miniature Omnidirectional capsule with 136 dB SPL handling for uncompromising performance vocals. This capsule minimizes low frequency buildup while the stability from the mounting design keeps the signal free of handling noise. The soft and flexible spiral ear hangers gives any user the perfect fit every time without the fear of it slipping off. Stage actors benefit from having full freedom of movement and mounting is instantaneous and intuitive. The semi-rigid mic boom can be contoured to each users liking. The heavy duty cable is removable and can be easily swapped to provide connector compatibility between different wireless systems.

VT DUPLEX-CARDIOID - CARDIOID HEADSET MICROPHONE

TRUE ELECTRET CARDIOID, BALANCED SOUND & PERFECT FIT

VT DUPLEX-CARDIOID HEADSET MICROPHONE - professional presentation, performance and broadcast headset microphone featuring exceptional sound clarity and an unobtrusive, nearly invisible design. The VT DUPLEX-CARDIOID utilizes a specialized “True” Cardioid super-miniature capsule for professional sound quality with rear-rejection. This capsule offers a very balanced sound compared to acoustically treated Cardioid headset types while the stability from the mounting design keeps the signal free of handling noise. The soft and flexible spiral ear hangers gives any user the perfect fit every time without the fear of it slipping off. Stage actors benefit from having full freedom of movement and mounting is instantaneous and intuitive. The semi-rigid mic boom can be contoured to each users liking. The included unique accessory **Distance Holder (DH)** allows for customization of the boom placement away from the face. This helps keep the boom off the cheek for lower contact noise and further comfort. The heavy duty cable is removable and can be easily swapped to provide connector compatibility between different wireless systems.

Includes: Foam Windscreen, Distance Holder and Deluxe travel case. *Available in Beige*

VT910DC OMNI SUPERLIGHT EAR HANGER MICROPHONE

MICROPHONE COMFORTABLY HANGS OFF OF EITHER EAR

VT910DC OMNI EARHANGER - a Superlight Single-ear Omni “Ear Hanger” microphone ideal for applications requiring minimum visibility. For stage, broadcast, public address, House of Worship and presenters, the VT910 is flexible, with a lightweight contoured loop for a universal fit on either ear. The VT910DC remains less visible than a conventional headset and more comfortable for extended wear. It’s ultra-robust cable can handle the rigors of daily use. Moderate Hi-frequency emphasis at 10 kHz for clear voice reproduction in ambient spaces.

Includes: Foam windscreen, cable clip and travel case

EARPHONES FOR IFB / NEWSCASTERS / SECURITY

FOR INCONSPICUOUS LISTENING APPLICATIONS - IFB, NEWSCASTER AND SECURITY

VT600 - designed for inconspicuous listening requirements of newscasters, security professionals, stage performers and other talent requiring discrete cueing. Highly regarded for their excellent sound via a high quality, subminiature 500Ω magnetic driver. It will interface with any wireless or hardwired device for monitoring with a 3.5 mm T/S connector. **Beige or Black**

Key Feature: short bend acoustic loop tube, driver lays behind ear, straight cable
Includes: Standard earpiece, Accordion earpiece, clip and storage box.

VT600T - designed for inconspicuous listening requirements of newscasters, security professionals, stage performers and other talent requiring discrete cueing. Highly regarded for their excellent sound via a high quality, subminiature 500Ω magnetic driver. It will interface with any wireless or hardwired device for monitoring with a 3.5 mm T/S connector. **Beige or Black**

Key Feature: coiled acoustic tube for unrestricted head movements, straight cable
Includes: Standard earpiece, Accordion earpiece, clip and storage box.

VT600C - designed for inconspicuous listening requirements of newscasters, security professionals, stage performers and other talent requiring discrete cueing. Highly regarded for their excellent sound via a high quality, subminiature 500Ω magnetic driver. It will interface with any wireless or hardwired device for monitoring with a 3.5 mm T/S connector. **Beige only**

Key Feature: combines benefits of VT600 (driver closer to ear) and VT600T (coiled)
Includes: Standard earpiece, Accordion earpiece, clip and storage box.

VT610TC125 & VT610TC32 - inconspicuous listening requirements of newscasters, security professionals, stage performers and other talent requiring discrete cueing. Utilizes a standard, typical size 125Ω or 32Ω driver, integrated clip and a coiled acoustic tube like the VT600T. It will interface with any wireless or hardwired device for monitoring with a 3.5 mm T/S connector.

Key Feature: coiled acoustic tube for unrestricted head movements, straight black cable
Includes: Standard earpiece, integrated clip, removable cable and storage box.

EARPHONES FOR IFB / NEWSCASTERS / SECURITY

FOR INCONSPICUOUS LISTENING APPLICATIONS - IFB, NEWSCASTER AND SECURITY

VT600D - designed for inconspicuous listening requirements of newscasters, security professionals, stage performers and other talent requiring discrete cueing. For Hygienic conditions the coiled tube and earpiece can quick-detach from the cable so talent can keep their own earpieces with shared IFB and monitoring receivers. Highly regarded for their excellent sound via a high quality, subminiature 500Ω magnetic driver. It will interface with any wireless or hardwired device for monitoring with a 3.5 mm T/R/S connector (not for Comtek).
Includes: Earpiece and storage box.

VT60M - a very small and extremely lightweight earphone that's totally unobtrusive. It utilizes our subminiature 500Ω magnetic driver placed directly in the ear canal with a special earpiece fitting. It is connected with a thin 1 mm diameter wire that can be difficult to see in most applications. It delivers quality sound as well as isolation from outside noise. It's equipped with a 3.5 mm mono T/R/S connector for most monitor devices (not for Comtek).
Includes: Modified mini earpiece and storage box.

VT602 - a stereo version of the VT600. The VT602 comes with (2) Flexible Open Ear Inserts. The open frame design still allows the user to hear ambient noise, they fit without pressure entirely in the outer auditory canal. They are very comfortable even after many hours (e.g. professional camera operators and Directors), are hygienic being cleaned very easily.
Includes: (2) Flexible earpieces and travel pouch.

+48V PHANTOM POWER XLR-3 ADAPTORS

For Hardwired XLR use of VT microphones that have an attached wireless connector

Our XLR phantom adapters allow "Direct-to-Mixer" use of VT lavalier and headset microphones that have an attached wireless connector. It converts phantom +48V to electret power and outputs the audio as an electronically balanced signal via an XLR-3M.

VT1126 - Mini adaptor, XLR-3M connector, +48V phantom power only

Dimensions: 0.75" x 2", 1.94 ounces

The VT1126 can be used with both 3-wire and 2-wire terminated VT microphones and are available with the most popular wireless mating connectors. They also work with the common wirings of Sanken COS-11, Tram TR50+ and Sonotrim microphones.
